

ReGen Labs

Driven by Expertise
Powered by Quality

SMARTD
INNOVATION ENGINEERED,
ENERGY OPTIMISED

Smardt center of excellence for compressor regeneration

ReGen Labs™ are purpose-built to restore critical assets to like-new performance with OEM precision, speed, and responsibility. It reflects the essence of what we do: bringing compressors back to life, extending their operating lifespan, and delivering reliable performance when it matters most.

At the core of **ReGen Labs** is a smarter alternative to replacement: immediately available, in-stock regenerated compressors, rebuilt using genuine OEM parts, advanced diagnostic tools, and certified processes; all fully backed by an OEM warranty.

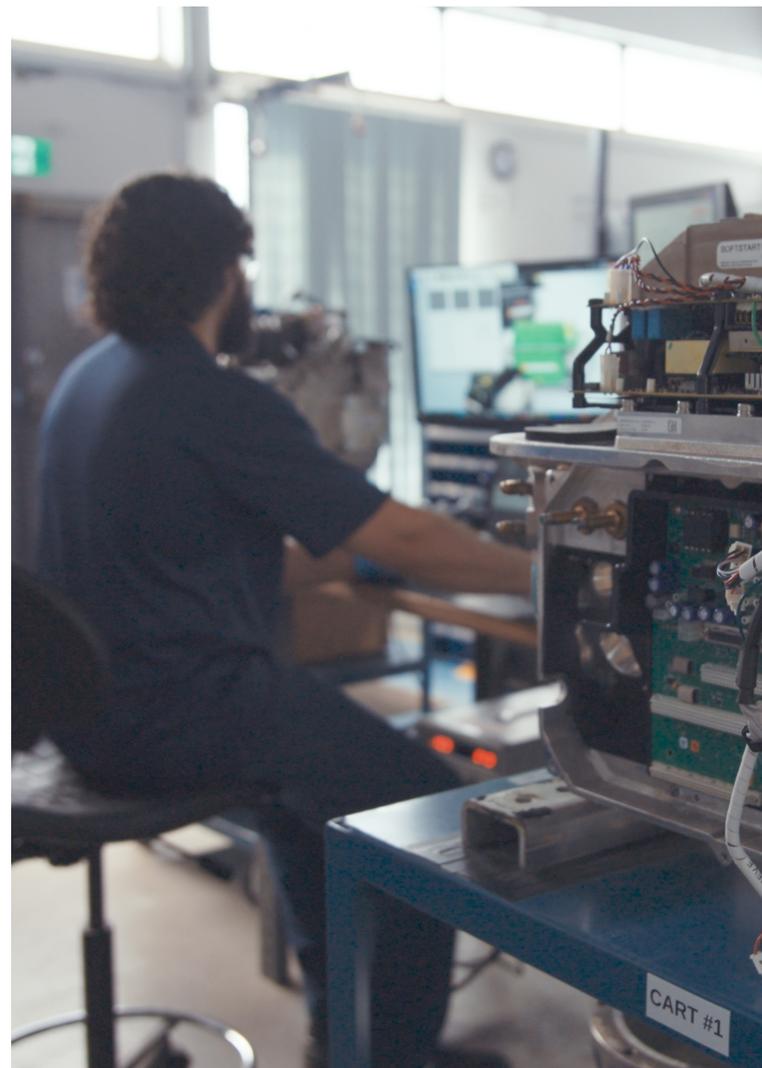

With over 100 years of combined expertise across our global centers, every compressor leaving **ReGen Labs** meets the highest standards of quality, performance, and reliability, giving customers confidence, continuity, and readiness to return to operation faster.

100+ YEARS OF EXPERTISE

OEM EQUIVALENT REBUILD

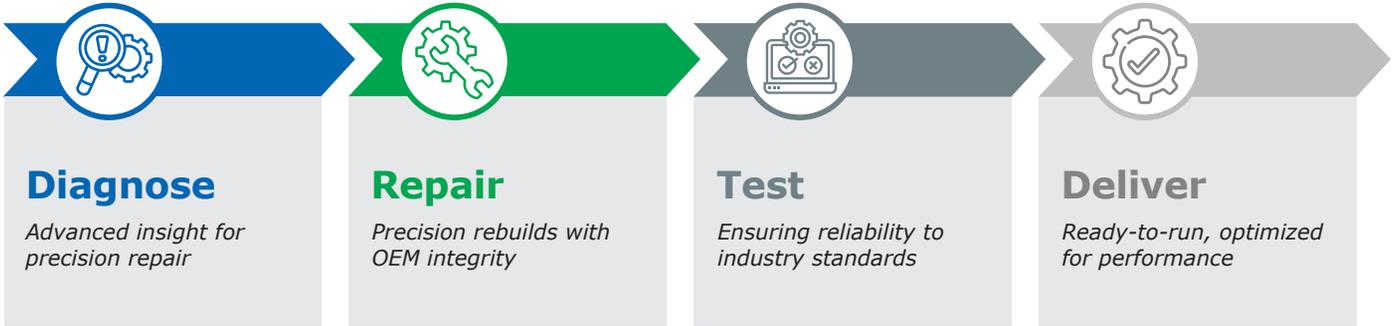

500+ COMPRESSORS REPAIRED

ONE COMPRESSOR REPAIRED EVERY 2 DAYS

How do ReGen Labs maximize your asset value ?

Diagnose

Advanced insight for precision repair

Comprehensive system analysis using advanced diagnostic tools to identify the root cause, not just the symptoms.

Repair

Precision rebuilds with OEM integrity

Repairs performed by trained technicians using genuine OEM parts for guaranteed compatibility and reliability.

Test

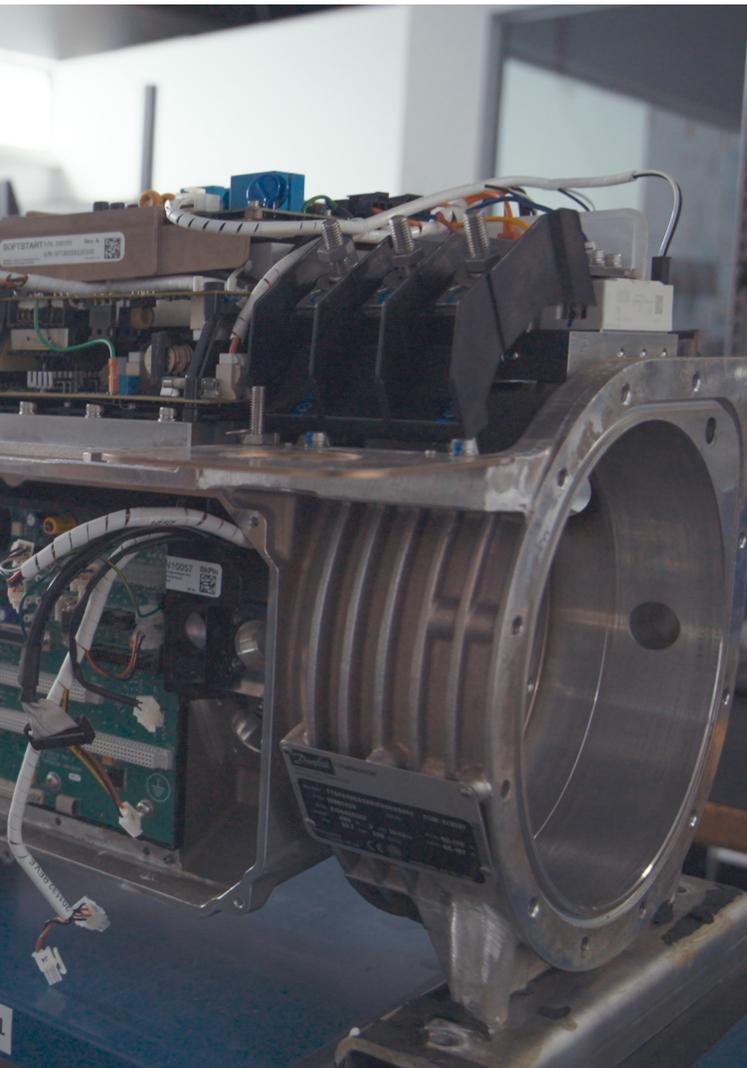

Ensuring reliability to industry standards

Every rebuilt compressor undergoes rigorous performance checks, tested to OEM standards for guaranteed functionality.

Deliver

Ready-to-run, optimized for performance

Fully repowered compressors, installation support, and operational guidance, ensuring plug-and-play readiness and peace of mind.

Renewal

Extending asset life through precision rebuilds

Responsibility

Supporting sustainability and circular economy goals

Readiness

Faster recovery, reduced downtime, assured performance

Global innovation in oil-free technology products built for high-performance environments

Smardt Chiller Group is a global leader in energy-efficient HVAC technologies, operating across the Americas, Europe, Asia, and Australia. With over 12,000 installations worldwide, Smardt systems power some of the most demanding environments; from hospitals and commercial complexes to manufacturing and mission-critical facilities.

Driven by continuous innovation, we deliver high-performance, low-maintenance solutions that help customers reduce energy consumption, meet global compliance standards, and advance their sustainability goals.

As buildings evolve, we continue to reduce energy usage, support global compliance requirements, and help customers move towards more sustainable operations.
